

# Costa Huang

## WORK EXPERIENCE

FALL 2017 – PRESENT

Furman University, Greenville, SC

### *Full-stack Developer*

- Develop a commencement-related app that allows students to upload their name pronunciations and profile pictures
- Collaborate with the university registrar and IT department to deploy this app
- Utilize Go and Algolia for back-end to build interactive search
- Use Nuxt.js and Slick.js to create mobile-friendly admin panel

FALL 2017

Furman University, Greenville, SC

### *Teaching Assistant*

- Tutored students on Web Programming topics: JavaScript, VueJs, Webpack, Vuetify, and Laravel
- Experimented with the newest front-end and back-end technologies with the professor.
- Explored AWS S3 for uploaded files storage

SUMMER 2017

Furman University, Greenville, SC

### *Researcher*

- Conducted research on travel plan recommendation based on historical traffic flow data
- Published *StreetTraffic*, a Python server package that crawls traffic flow data
- Set up proper unit-tests and documentation by using Sphinx

FALL 2016 – SPRING 2017

Furman University Investment Club

### *Vice President of Technology*

- Founded [portfolio.fuinvestment.com](http://portfolio.fuinvestment.com) that shows equity curve, portfolio, and transactions history
- Used Google Script to automatically record portfolio value every day for quarterly analysis
- Collaborated with club members to introduce stock tracker games
